

Homes for All control rents Axe the Housing Act

Key action points from the Housing Summit 25 November

1. United support for Grenfell protest 6 December from 5.30pm at Kensington & Chelsea Town Hall – for justice and permanent homes
2. We demand a ballot before any demolition of homes and estates, and support all campaigning against unwanted redevelopment
3. A national day of action against Universal Credit - No evictions due to Universal Credit and benefit cuts
4. If there isn't a problem – don't create one! Impact on mental health should be costed into redevelopment viability assessments
5. Change the language and dialogue on housing – increase information and listen to residents
6. Grassroots organisation and a national movement of private renters – we need a renters' union
7. No above-inflation rent rises
8. National grant funding for a minimum 100,000 council homes per year
9. Link up!

The [Housing Summit 25 November](#) brought together 200 tenants of all tenures, workers, homeless and other campaigners to demand action for Grenfell and on fire safety, new council housing, stopping demolition, regulation of HAs and an end to forced mergers, rent controls, Universal Credit and scrapping the 2016 Housing and Planning Act. A full report and update on campaigns will follow.

After Grenfell, time to invest NOW! [Budget for Homes](#)
