Join the protest **March for Homes**  
**Saturday 24 June 2017**  
**12 noon Parliament Square SW1P 3AD**

- Justice and answers for Grenfell now – rehouse everyone locally with secure tenancies
- Independent enforced fire safety reviews – remove all combustible cladding now
- Council homes not social cleansing
- Control rents and stop demolition
- Secure homes for all
- Scrap the Housing & Planning Act 2016
- A massive investment in first class council homes for rent

# Enough empty words – we need action

The terrible Grenfell fire shows the murderous result of housing policies dictated by profit and greed. Tenants die because landlords don't listen.

Everyone needs a home they can afford. Government continues to destroy council housing. Street homeless and

insecurity is soaring, and millions are trapped in expensive, insecure private renting. People pay over half their income in rent – while landlords and developers get tax breaks and subsidies.

Opposition in and outside Parliament stalled much of the Housing and

Planning Act 2016, including Pay to Stay and sell off of council homes on the open market. But the Act is law, and is still a threat.

A united housing movement needs to challenge the weak Government, take direct action and force the changes we need.
