HOUSING
ACT

HOMES FOR ALL

Justice for Grenfell

Enough empty words – we need action

- Justice and answers for Grenfell now – rehouse everyone locally with secure tenancies
- Independent fire safety reviews – remove all combustible cladding now
- Council homes not social cleansing – stop demolition
- Control rents and secure tenancies for private renters
- Make housing associations publicly accountable and listen to tenants
- End the Bedroom Tax and benefit caps – suspend roll out of Universal Credit
- Requisition empty homes for social rent
- A safe, secure home for everyone
- Scrap the Housing & Planning Act 2016
- A massive investment in a million first-class council homes for rent

The terrible Grenfell fire shows the murderous result of housing policies dictated by profit and greed. Tenants die because landlords don't listen.

Everyone needs a home they can afford. Government continues to destroy council housing. Woeful public funding and inflated land prices choke off much-needed cooperative housing.

Street homelessness

and insecurity is soaring, and millions are trapped in expensive, insecure private renting. People pay over half their income in rent – while landlords and developers get tax breaks and subsidies.

Opposition in and outside Parliament stalled much of the Housing and Planning Act 2016, including Pay to Stay and selling off of council homes on the

open market. But the Act is law, used to deregulate housing associations and attack Gypsy and Traveller rights. It is still a threat.

Join us to help create a united housing movement. It's what we need to challenge this weak Government, take direct action and force the changes we need.

Get in touch, come to an organising meeting, send your ideas – it's time for action.

AXE THE HOUSING ACT is supported by Defend Council Housing, Radical Housing Network, Generation Rent, tenant groups, Unison, GMB, CWU, Bakers, NUT trade unions, Unite Housing Workers, London Gypsy Traveller Unit, National Bargee Travellers Association, London Cooperative Housing Group, the Green Party, John McDonnell MP, Peoples Assembly, Momentum and more
