Come to hear what's happening, join up the campaigns and work out next steps

The fight for homes affects everyone. Millions are stuck on waiting lists, in temporary accommodation, or on the streets, and millions more paying half their income to private rent, with few rights and no security.

Unless homes are made safe, 'Stay Put' means more deaths. Grenfell exposed the risks. Schools, hospitals and student blocks, building workers and neighbourhoods are also threatened.

We are joining up tenant and safety campaigns, trade unions and all who need a home to demand:

Safe, secure homes for all
