[Your] Council- xxxxx to beat the Housing Act

Fight for council homes- don't do the Government's dirty work

The Housing and Planning Act will not solve the housing crisis. It will make it worse. It will force people from their homes, families and communities, into insecure private renting. It will destroy council housing and other non-profit housing. Many councils have criticised and oppose the Housing Act. But many people still don't know about the Act. We call on xxx Council to send out information to residents and hold meetings to discuss it. publicly state their opposition to the Act, campaign against it and make clear xxxxxxxxx Council will not begin implementing "pay to stay", introducing non-secure tenancies or selling off high value council homes. This is a political choice, and the Council can choose to stand in unity with tenants, leaseholders, trade unions and community groups. It can join with other councils to make the Act unworkable.

Together we can stop the Housing Act
