

**Summit against the Act 22
October: 'suggestion wall'
comments**

Link with unions in housing sector - union leaders lead too

Engage union branches to be 'creative' re planning/development plans and implementation

Labour council members instruct housing workers not to collect tenant data and guarantee housing workers will keep jobs as the support practical opposition to Housing Act

Walthamstow an inspiration - celebrate and share/emulate

All Labour council leaders who have said they are against the Act should form a delegation to the Daily Mirror, to make them publicise the evils of the Act

Our councillors from Southwark should defy the Act

The leaders of Southwark should stand up and denounce the Act and show solidarity with us.

No more land deals with developers

More planning and resources to prevent hoarders being targeted and evicted - eg affordable self-storage for poorer families.

Unite under a 'Defend Social Housing' banner

Return (?) housing associations to co-operative tenant ownership. Richard Comaish
